

# Folding Tool Bar

For Planting or Strip till

Safety lights are a standard feature.

Electric over hydraulic switch controls lowering and raising unit, folding and raising units for transport.

A swivel implement hitch is standard. Requires a 2" pin. Also shown is hydraulic jack.

Rear Implement

Tool Bar folds forward. Hitch telescopes to the rear while folding.

Wing sections fold forward and rest on pole wing brace supports. The wing dual axles raise for transport.

Two tank system for 40' and 60' bars. 75 bushel capacity. For 60' bars, a four tank system is available. 75 bushels per tank.

A secondary tool bar is available for additional attachments.

The hydraulic safety latch holds hitch in transport position.

Track axle is built to accept:  
120" ctr. - 24"x47" track.  
132" ctr. - 16.5"x47" track.  
120" ctr. - 30"x67" track.  
**Note: All tracks are used.**

Rear bar rotates 90 degrees for road transport.

WILL PAINT IN RED OR GREEN

## Specifications

### Tool Bar

7x7 Main Bar  
Tongue 12"x12" Tube with 10"10" telescoping tongue  
Hydraulic folding wing  
Swivel Implement hitch for 2" pin Cat. IV and 2.75" pin Cat. V  
Wings rotate up 90 degrees for narrow transport

### Hydraulics

Six lift sequencing cylinders  
Two wing fold cylinders  
Four tool bar tilt cylinders (40' & 44')  
Six tool bar tilt cylinders (60' & 66')  
RUNNING GEAR: 16-1/2", 24" or 30" WIDE RUBBER TRACK or axles for truck tires (16.5x22.5)

### Safety Equipment

Safety chain  
Transport warning lights  
SMV sign

### Optional Equipment

Hydraulic Jack Rear to wing hitch

Model	Transport			Approx. Weight (lbs.)
	Width	Height	Length	
40' 16 Row 30"	16' 2"	12' 0"	30' 6"	20,338
44' 24 Row 22"	15' 0"	12' 0"	30' 6"	20,579
60' 24 Row 30"	16' 2"	12' 0"	37' 6"	22,664
66' 36 Row 22"	15' 0"	12' 0"	37' 6"	23,990

\* Adding tank will increase transport height of unit. Approx. 12' 4" with granular tank.
